

ENZO GOMEZ

IT Technician | Full Stack Developer | Networking, IT Support and AI Automation

+598 91031208 | enzogomez.dev@gmail.com | linkedin.com/in/enzo-gomez-web-developer | github.com/enzo09g | Uruguay | Remote-ready

PROFESSIONAL SUMMARY

IT Technician and Full Stack Developer with hands-on experience in web development, network infrastructure, and IT support. Proven track record designing and maintaining corporate web solutions (Astro, React) and optimizing engineering workflows through AI-assisted automation (Cursor, Claude Code). Skilled in resolving complex hardware/networking issues, deploying secure remote access via Cloudflare Tunnels, and improving IT operations efficiency.

WORK EXPERIENCE

IT Technician / Web Developer - El Corralón | Salto, Uruguay | 2024 - Present

- Designed, built, and deployed the official company website using Astro and Tailwind CSS, improving page load speeds and enhancing online brand visibility.
- Built and maintained responsive, high-performance web interfaces with React and Bootstrap, ensuring seamless cross-device compatibility.
- Accelerated frontend development velocity by integrating AI agents, utilizing Cursor Composer and Claude Code (MCP) to automate boilerplate code generation and refactoring.
- Engineered secure remote access for IP/DVR surveillance systems by deploying Cloudflare Tunnels and RTSP streams, eliminating external security vulnerabilities.
- Optimized internal network stability and troubleshooting protocols for routers, DNS, and local connectivity, reducing business downtime.
- Provided comprehensive IT support for workstations and hardware, streamlining daily technical operations for internal users.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Astro, Bootstrap, Tailwind CSS, Responsive Web Design

Backend & Databases: Node.js, REST APIs, API Integration, Java basic/intermediate, MySQL, Microsoft SQL Server, PostgreSQL

Tools & Development: Git, GitHub, VS Code, Docker, Linux, Excel, Word

Networking & Infrastructure: Local Area Networks, basic router configuration, IP cameras, DVR, RTSP, Cloudflare Tunnel, basic DNS, basic Nmap

AI & Automation: Claude Code, OpenAI Codex, AI-assisted development, basic AI agents, prompt engineering, AI integration in web projects, AI tools for development workflows

PROJECTS

Company Website - El Corralon

- Designed and developed the company website from the visual structure to the front-end implementation.
- Maintained and improved website content, usability and technical behavior according to business needs.

Local Network and Camera Access Improvements

- Supported local network configuration and troubleshooting for business operations.
- Worked with DVR/IP camera access, RTSP streams and secure external access using tunneling tools.

EDUCATION

Technical Education in Information Technology - UTU | Escuela Superior Catalina Harriague de Castanos | 2020 - Present

COURSES

Jovenes a Programar | 2023

LANGUAGES

Spanish: Native | English: Intermediate, actively improving
